

Front of Drop Bag

1. **Serum '25**

2. **Tanana**

3. **(Bone Yard Cabin)**

4. **McLarnon**

5. **1 of 4**

Use one of those HUGE markers for writing on the drop bag.

1. Event Name – Serum '25
2. Drop Point (Tanana, Ruby, Galena, Kaltag, Shaktoolik, White Mountain, Nome)
3. Actual stop you are planning on using drop bag – OPTIONAL

(**Tanana** = Tanana, Bone Yard and Trapper Cabin, **Ruby** = Ruby, **Galena** = Galena #1, Galena #2 and Nulato, **Kaltag** = Kaltag, Old Woman Cabin and Unalakleet, **Shaktoolik** = Shaktoolik, Kouyk and Eilm, **White Mountain** = White Mountain and Safety and **Nome** = Nome)

4. Last name
5. # of drop bags shipped to that drop point

You should secure the top of the drop bag with some type of tie (I fid poly rope around the top that not only closes the bag, but makes a handle – easier to move around and then you have poly rope to make more necklines). Each bag should weigh approx. 40-60 lbs. My avg. drop bag weight last time was 54 lbs.. I shipped three to most drop points (one for each day) containing dog stuff and one additional one for personal stuff (runners, boot liners, etc.) that only weighed about 15 lbs.
